

Product Name	Enhanced Multi-Network Cable Tester With Tone Generator
Part Number	CTK-MNCTRJ-T

Highlights:

- ▶ All-in-one tester/tone generator
- ▶ Compatible with most tone generators on the market
- ▶ Pin-to-pin LED indication
- ▶ Local “Loop Back” test
- ▶ Remote terminator for testing pre-installed cables
- ▶ Auto-scan or manual step testing
- ▶ Accessories to test BNC and RJ12 cable networks

Introduction

CTK-MNCT-RJT is the perfect companion for network professionals. It combines the function of a simple-to-use cable tester with a built-in tone generator. The CTK-MNCT-RJT can enhance the technician’s ability to quickly locate and verify the status of a commonly used voice and data cable. The test functions include: loop-back, continuity, open, shorts, miss-wire and pin-to-pin configuration. The CTK-MNCT-RJT is capable of generating a low emission frequency “tone”. When coupled with a compatible tone tracer, it can allow a technician to quickly isolate and locate the cable being tested. Everything comes packaged in a convenient carrying pouch. Require a 9-Volt battery to operate.

Product Information

Item	Description
Power	Main Unit – 9V Alkaline Battery Remote Unit – None Required Battery Life – approx. 60 hr. (continuous operation)
Size	Main Unit – 4.57” x 2.67” x 1.13” (116mm x 68mm x 28mm) Remote Unit – 4.65” x 1.28” x 1.11” (118mm x 32.5mm x 28mm)
Case Size	6in x 4.5in x 1.75
Weight	0.4lbs (180g) without battery 0.80lbs (360g) shipping
Operating Temp.	0 to 45 degrees Centigrade
Enclosure	ABS plastic
Tone Freq	800Hz
Built-In Interface	RJ48 Jack – accepts both RJ45 & RJ12 plugs Ground jack – for grounding the tester during trace operation
Accessories	2 x RJ45-BNC adapter; 1 x grounding cord; 1 x RJ45 patch cable
Distance	Up to 2000ft (610m)
UPC Code	618504071053
Suggested Retail Price	\$89.00
